

Dear Parent / Carer

We hope this message finds you well and filled with anticipation for the exciting half term ahead! As we gear up for the next half term, we are thrilled to provide you with a sneak peek into the learning that awaits our pupils. We have carefully designed a curriculum that aims to cultivate a love for knowledge, develop as participating citizens in society and become inspired by exploring a wide range of subjects that will captivate their imaginations, all while we embark on our next topic – Wolves.

Subject Overviews

English

The first part of the half term will see children develop their writing skills writing a character transformation using the classic transformational story of Dr Jekyll and Mr Hyde as a stimulus to write before applying our writing skills to describe a legendary werewolf transformation, intending to truly grip and terrify our reader. Later in the term, we use our in-depth study of wolves to create some informative non-fiction texts too.

Maths

We will complete extensive work on fractions, decimals and percentages, and ratio, in addition to elements of geometry, measurement and statistics too. We will continue to practise calculation each week, as well as regularly revising and revisiting prior learning, ensuring concepts become familiar and processes automatic.

Science

Our science unit for this half term will centre around 'Animals and Humans', where we will learn about a range of biological concepts such as the human skeleton and muscles, digestion, the circulation system and the impact of lifestyle choices on health.

Computing

We will build upon previous knowledge on e-safety by introducing children to the vocabulary of 'bystander' and 'upstander', how to respond to negativity online and how online means of communication can be misinterpreted.

Geography

Russia is the focus of our Geography studies in the second half of Autumn term. We focus on physical geography learning through studying aspects such as climate, natural resources, and biomes. We also look at how the land use has changed through time. Throughout the topic, we practise our geographical skills by using sources such as maps and charts.

Art

We will be linking our Art to our topic of Wolves. We will be progressing sketching techniques such as shading to create a variety of tones and texture, as well as developing proportion. Children will produce an initial sketch of a wolf and then receive the opportunity to see how their abilities have increased throughout the unit.

RE

Our focus this year will be on the Christian religion. This term, we will study different Christian stories, such as the story of creation, Noah's ark and 'the fall of man' to seek to understand the central beliefs of the Christian faith.

PE & Games

In PE, children will further develop skills in badminton and OAA (Outdoor Adventurous Activities) and in games they will focus on basketball & hockey.

PE Kit Reminder: Children may come into school on a Tuesday and Friday wearing their PE kit.

Music

We will look at music as a characterisation tool by linking our work to a traditional tale structure—Peter and the Wolf. We will look at composition and how an orchestra can be used to build certain feelings and effects.

French

Children will be learning clothing words and link to weather to re-construct the story of “Quel temps fait-il, Berthe?”.

Homework

Reading

We ask that children are listened to while they read for about 10 minutes a day. They have an appropriate reading book given to them by the school but they could also choose to read a book from home or the library. Please support them by recording their reading in their organisers. Children who read at least 5 times per week are entered for a reading prize.

Maths

The children will be set maths homework at least once a week. This will usually be on MyMaths on a Friday. If the children need additional support or access to a computer to complete it they can attend homework club.

Spellings

The children will still receive new spellings on a Wednesday which will be stuck in their log books. They will complete practise activities within school but we also encourage further practise at home to ensure spelling patterns and rules are remembered.

Topic

This term your child will be set a homework linked to our learning across the curriculum. Thank you for your support with this. Further details will follow.

Drinks & Snacks

Please remember to pack a healthy snack for your child to eat at playtime and provide a named water bottle.

Year group info- pictures below from left to right:

- **Head of Year 6 – Miss C Campbell**
- **Teachers:** Miss Hobson, Mr Targett, Miss L Baldwin, Miss E Megeary,
- **Teaching Assistants:** Mrs C Downs, Mrs Preston, Mrs Adil, Mrs Dexter, Miss Wong (not pictured)

Upcoming Events

Tuesday 31st October – Maths & Science Day

Tuesday 31st October 4pm – 5:30pm – Hallowe'en Disco

Thursday 9th November - Woburn Wolf Keeper Visit

Friday 15th December – Christmas Jumper Day and Christmas Lunch

Tuesday 19th December – House Art Day and French Breakfast.

Wednesday 20th December – Christmas Performance.
