

Remote Learning Provision

January 2021

Remote Learning Provision

Online provision is available for the following reasons:

- An individual pupil is self-isolating due to someone else in the home having Covid symptoms (this could last for 10 days or up to a negative test result of the symptomatic person)
- A 'bubble' isolating due to a confirmed case in school (a 10 day period)
- A national or local lockdown closing the school for all pupils other than those who are vulnerable or whose parents are key workers (indefinite period)
- A pupil having tested as positive but no longer with symptoms (a 10 day period)

Please note: Any child who is ill will not be expected to complete online learning as they will be recovering from the reason for absence.

Wave 1 Provision - Online Learning Provision for Individuals Isolating

Access to online learning for individuals isolating for the following reasons:

- someone else in the home having Covid symptoms
- they have tested positive but no longer / do not have symptoms
- they are awaiting a test or results for symptoms but are generally feeling well

These individuals will be able to continue to access education and learning through the following provision using Microsoft Teams:

Pre-Recorded Lessons

- Children at home will be able to watch and listen to pre-recorded lesson online. As one teacher from each year group will be posting the video content each day for all children within that year group, this may not be your child's usual class teacher.
- Children will have access to their normal curriculum content across the week. This will include Maths, English and Topic lessons as well as provision from specialist teachers for Music, French and PE.
- If the children are working through pre-recorded lesson guidance, a teacher from their year group will endeavour to make contact and check in with them at the end of the day.

Daily Assignments

- For each lesson, work will be set online for the children to access and complete at home.

- The documents that are shared with the children can be edited online so that the children can complete their work using their computer/tablet. These can then be sent directly back to the teacher for marking.
- If your child would prefer to work on paper, the documents can be printed off or completed on paper. You can then take a photo of this work and upload it online for the teacher to view.
- Children will be given a week to complete each of their assignments.

Teacher Feedback

- Once your child has submitted their completed assignments, their teacher will provide them with feedback.
- This feedback can be viewed by your child online.
- Teachers will aim to provide feedback within a week of the assignment being set.

Wave 2 Provision - Online Learning Provision for bubbles or whole school isolating

In the event that a bubble or the whole school has to isolate, online learning provision will continue. Teachers will upload pre-recorded lessons online for the children to watch. The daily assignments and teacher feedback will remain the same as Wave 1 provision.

However, in this case, the class teacher will hold a daily online registration meeting as a way of keeping in contact with their class. This might be at the start or the end of the day; the teacher will post the link to the meeting via the child's class Team in Microsoft Teams.

Communication

While there is the function for staff to provide feedback via teams, can parents still contact the school via the phone or email the school office or the year group email with any questions they have.

Please find the school's Remote Learning Policy on our website which includes information about how children should remain safe online and the school expectations around remote learning. You will receive a ParentMail with your child's log in details (it should also be stuck in their reading log) along with help guides about how to set up and access your child's Microsoft account for school. These guides will also be available on our website.
